I love music!

I'm really into music! I just love listening to music. I really like anything, any kind of music, but my favorite is pop. Right now, my favorite is Lady Gaga, but I also like the old songs, the "oldies". My parents have always played music at home, in the car, everywhere, really. So, since I was little I have always listened to music. My parents love rock and Brazilian music. They are into the old rock bands, like the Beatles, the Rolling Stones, Queen. And they also like Raul Seixas. And Coldplay! I like Coldplay, too. My parents went to their show when they came to Brazil, and they took me with them. I always listen to music in my room before I go to sleep. I use my phone and earphones. This morning, while I was coming to school, I was listening to Justin Bieber in the car. I like him a lot! Of course.

- Para finalizar, de acordo com a página 174, você vai fazer a sua própria playlist (Creating a playlist). Cite as suas músicas mais ouvidas nos últimos tempos.
